“Ish Tsadik Hayah” Association, headed by Rabbi Haim Eidels

I have the honor to be acquainted with the blessed works of Rabbi Haim Eidels in the framework of the “Ish Tsadik Hayah” Association.

The Association is active in two main capacities reflecting a commitment to benevolence and to activity that has saved the lives of many people: in the medical field, the Association assists people who suffer from neurological disorders and cardiological and hematological illnesses that require medical care not qualifying for support through the governmental Health Care Basket.

Rabbi Eidels served in the past as a member in the Health Care Basket committee, and is intimately acquainted with the severe hardship faced by patients who haven't the means to obtain costly medical care, and has thus chosen to assist in this life-saving capacity.

An additional field in which the Association invests is in the purchase of basic goods for baby-care and milk substitutes for needy families. Such care is coordinated with the official state social services.

I am personally acquainted with the Head of the Association, Rabbi Eidels, and can confirm the great devotion with which he serves Klal Yisrael.

His laudable activity merits every praise.

Sincerely yours,
